Hospital Clínico San Carlos

Scientific Program

8.45 - 9.15

9.15 - 9.50

9.50 - 10.30

Welcome Reception

César Gómez Derch, Antonio Álvarez Blanco, Dr. Fernández-Arquero, Dra. Martínez Novillo y Dra. Sánchez- Ramón

Session I. Immunology Advances (I)

NextGen T cell-based Cancer Immunotherapies: Reactivation and/or Redirection

Speaker: **Dr. Luis Álvarez - Vallina**

Moderators: Dr. Miguel Fernández- Arquero y Dr. Javier Carbone Campoverde

Session II. Immunology Research (II) Oral communications - CLINICS

Moderators: Dra. Ana de Andrés y Dra. Rebeca Pérez de Diego

Increased CD8+DR+ T-cell levels in patients with difficult-to-control CMV infection in solid organ transplantation

Speaker: **Javier Carbone**

Neuroinflammation and synaptic diffusion in acute linfoblastoc leukaemia

Speaker: **Sara González**

Defect of STAT2-dependent IFN-I-mediated immunity in a patient with haemophagocytic lymphohistiocytosis and multisystemic inflammatory syndrome

Speaker: **Marta López**

Serum IgM detection has a similar sensitivity to oligoclonal bands for the diagnosis and prognosis of multiple sclerosis

Speaker: **María Cruz Sábada**

10.30 - 11.00

Coffee Break +

Visit of the Evaluation Commission to selected Posters

11.00 - 12.00

12.00 - 13.00

Satellite Symposium Pharming

What is Activated PI3K δ Syndrome and how is diagnosed?

Speakers: Dr. Luis Ignacio González Granado y Dra. Silvia Sanchez Ramón

Moderators: Dra. Ana de Andrés y Dra. Rebeca Pérez de Diego

Session III. Immunology Advances (II)

Making human immune systems more interpretable using systems immunology

Speaker: **Petter Brodin**

Moderators: Dra. Silvia Sanchez Ramón y Dr. Ángel L. Corbí

13.00 - 14.00

Lunch +

Visit of the Evaluation Commission to selected Posters

22 / september / 2023

Hospital Clínico San Carlos

Scientific Program

14.00 - 14.50

Session IV. Immunology Research (II) Oral communications - BASICS

Moderators: Dr. Hisse M. van Santen y Dr. Daniel López Rodríguez

Importance of mitochondrial metabolism and glycolysis in the regulation of IL-17-secreting $\gamma\delta$ T cells in imiquimod-induced psoriasis and homeostasis

Speaker: **Danay Cibrian**

Calcineurin/NFAT pathway contributes to epigenetic reprogramming in trained immunity

Speaker: **Aitor Jarit**

GSK3 β -mediated anti-inflammatory and reparative reprogramming of human macrophages

Speaker: **Rodolfo Israel Ríos**

14.50 - 15.40

Closing Conference

Interaction between dendritic cells and T cells beyond lymphoid organs

Speaker: **Salvador Iborra**

15.40 - 16.25

Moderators: Dra. Silvia Sanchez-Ramón y Dr. Eduardo Martínez Naves

SICAM Assembly

Elections to the new Board of Directors

16.20 - 17.00

Awards Ceremony

Moderators: Dra. Silvia Sánchez-Ramón y Dr. Miguel Fernández- Arquero

- 2 IMMUNOTEK Awards for the best oral presentations
- 2 EUROINMUN Awards for best posters
- 2 Honorary Awards
- Mentions to honorary members
